DISCOVERER STT PRO

EXTREME OFF-ROAD TRACTION

The Discoverer STT Pro with patented Armor Teck3[®] technology for extreme off-road challenges

OFF ROAD PERFORMANCE

Tread pattern designed to get you through extreme off-road trails while providing a quiet ride when back on the pavement

DURABILITY

Patented Armor Teck3[®] technology strengthens the tire sidewall to improve protection when driving over boulders and uneven tough terrains

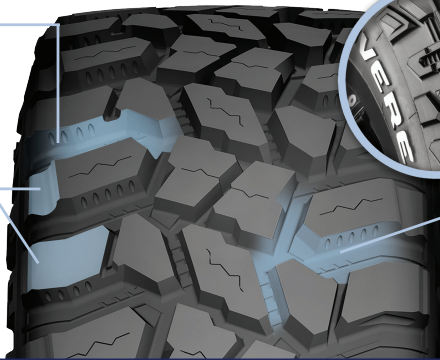

Rubber formulated to combat shredding and damage from stones and off-road obstacles

Mud Slingers™ 2.0

Deeper and wider grooves with additional notches for more grip to clear and to power through thick mud

Earth Diggers™ Technology

Tackle tricky terrain with large blocks with alternating mud scoops to dig into loose dirt, sand and sticky mud

Rock Climber Sidewall™ Technology

Conquer even the toughest obstacles with deep "climber cleats" and flex grooves built into the side of the tire that grip jagged rocks and power through thick mud

Stone Armor™ Technology

Provides the ultimate durability with channels, ridges, and edges designed to help defend against sharp rocks and debris while expelling lodged stones
