

DISCOVERER AT3^{LT/XLT}

DURABILITY

QUIET PERFORMANCE

EXTRA LOAD PERFORMANCE

WORLD EXPLORERS

Based on the design of Discoverer AT3, the Discoverer AT3 LT and XLT with Durable Tread (TM) Technology is designed to haul heavier loads with lesser wear. Built tougher to withstand dirt, rocks and gravel.

DESIGNED TO PREVENT CUTTING AND CHIPPING ON ROCKY AND GRAVEL TERRAIN

Even wear Arc™ Technology

Tire shape engineered to balance pressure at the road contact area to achieve even on-road treadwear with superior handling performance

EXTREME DURABILITY FOR HAULING

Rugged Traction Shoulders

Rugged traction shoulders increase off road traction over boulders and mud with stronger resistance against abrasion and punctures

Stone Ejector Ledges

Designed with ledges to eject stones and gravel to improve traction and minimize damages to the tire

Wisper Grooves™ Technology

A sound barrier wall that reduces road noise
